## The Benefits of Health Reform In New Jersey

Together, the *Patient Protection and Affordable Care Act (P.L. 111-148)* and the *Health Care and Education Reconciliation Act (P.L. 111-152)* will ensure that all New Jerseyans have access to quality, affordable health insurance. The Congressional Budget Office has determined that these two bills are fully paid for, bend the health care cost curve, and reduce the deficit by \$143 billion over the next ten years with further deficit reduction in the following decade. [CBO, [3/20/10](#)] The *Patient Protection and Affordable Care Act* and the *Health Care and Education Reconciliation Act* put control over health care decision in the hands of the American people, not insurance companies, reduce the cost of health care for the middle class, ensure health security to seniors, and provide tax credits to small businesses and individuals to further reduce the cost of health coverage.

### Key Benefits for New Jersey

- Provide tax credits for up to **144,316** New Jersey small businesses to help make coverage more affordable. [Internal Revenue Service, [4/19/10](#)]
- Prohibit insurance companies from excluding coverage of pre-existing conditions for the **2 million** children in New Jersey, starting this year. [U.S. Census Bureau, [1/7/10](#)]
- Close the 'donut hole' and improve other Medicare benefits for **1.3 million** New Jersey seniors. [HealthReform.gov, accessed [6/15/10](#)]
- Reduce Medicare premiums for the **1.1 million** New Jersey seniors who are *not* enrolled in Medicare Advantage and will no longer subsidize these private insurance plans. [Senate Finance Committee]
- Reduce health care costs for as many as **117,000** retirees in New Jersey who have health insurance through their former employer and are not yet eligible for Medicare. [WhiteHouse.gov, accessed [6/15/10](#)]
- Ensure affordable coverage options for **1.5 million** New Jerseyans who are uninsured and **326,000** New Jerseyans who purchase health insurance through the individual market. [HealthReform.gov, accessed [6/15/10](#)]
  - Ensure immediate access to affordable insurance options for as many as **130,793** uninsured New Jerseyans who have a pre-existing condition. [staff estimate using Agency for Healthcare Research and Quality (AHRQ), [4/09](#) and HealthReform.gov, accessed [3/20/10](#)] Starting July 1, 2010, approximately **\$141 million** will be available to operate this program in New Jersey. [Department of Health and Human Services, accessed [6/15/10](#)]

- Provide tax credits for up to **854,000** New Jerseyans to help make health insurance more affordable, bringing **\$13.9 billion** in premium and cost-sharing tax credits into New Jersey during the first five years the health insurance Exchange operates. [HealthReform.gov, accessed [6/15/10](#); Senate Finance Committee]
- Reduce family health insurance premiums by **\$1,860 - \$2,660** for the same benefits, as compared to what they would be without health reform by 2016. [Senate Finance Committee estimate based on CBO, [11/30/09](#)]
- Provide access to Medicaid for **476,277** newly-eligible New Jerseyans, and provide **\$9 billion** in federal funding for the cost of their coverage. [Urban Institute, [1/25/10](#); Senate Finance Committee]
- Allow as many as **758,000** young adults aged 19 to 25 to stay on their parents' insurance plans. [U.S. Census Bureau, [1/7/10](#)] The Administration estimates this change will help approximately **27,800** young adults in New Jersey who could now have health insurance coverage through their parents if not for their age. [WhiteHouse.gov, accessed [6/7/10](#)]
- Create **16,200 - 25,900** jobs by reducing health care costs for employers. [U.S. Public Interest Research Group, [1/20/10](#)]
- Provide more federal funding for **134** Community Health Centers in New Jersey. [National Association of Community Health Centers, [2009](#)]

## ***Affordable Coverage Options for New Jersey Small Businesses***

Small businesses make up **80.3** percent of all New Jersey businesses, yet just **59.6** percent of these small businesses are able to offer health insurance to their employees. [AHRQ, accessed [3/20/10](#); AHRQ, accessed [3/20/10](#)] Starting this year, up to **144,316** New Jersey small businesses will be eligible for tax credits for a percentage of their contribution to their employees' health insurance. [Internal Revenue Service, [4/19/10](#)] Small businesses of the size that qualify for these tax credits employ **617,783** New Jerseyans. [AHRQ, accessed [3/20/10](#)]

## ***Protecting Children***

Recognizing the special vulnerability of children, health reform prohibits insurance companies from excluding coverage of pre-existing conditions for the **2 million** children under age 18 in New Jersey. [U.S. Census Bureau, [1/7/10](#)] This takes effect for plan or policy years beginning on or after September 23, 2010, and applies to all new plans.

## ***Strengthening Medicare for New Jersey Seniors***

Health reform improves Medicare benefits for the **1.3 million** Medicare beneficiaries in New Jersey. [HealthReform.gov, accessed [3/20/10](#)] Last year, approximately **227,000** New Jersey seniors hit the Medicare Part D 'donut hole,' and about **109,000** of these seniors received no extra help to offset the cost of their prescription drugs. [HealthReform.gov, accessed [3/20/10](#); WhiteHouse.gov, accessed [6/7/10](#)] Starting this year, as many as **109,000** seniors in New Jersey who don't receive Medicare Extra Help and who hit this gap in their prescription drug coverage will receive a \$250 check, and the 'donut hole' will be completely closed by 2020. Seniors do not need to do anything in order to receive their rebate check, which some seniors who already hit the donut hole received in mid-June. These checks will be mailed monthly to seniors who reach the "donut hole" later in the year. The **1.3 million** Medicare beneficiaries in New Jersey will see other improvements to the program, including a free, annual wellness visit and no cost-sharing for prevention services. Finally, by gradually moving to a more fair payment system for private insurance companies who participate in Medicare Advantage, health reform will lower Medicare

costs for the **1.1 million** New Jersey seniors *not* enrolled in Medicare Advantage, by as much as \$45 in premium costs each year. [Senate Finance Committee]

## ***Helping Businesses Help Early Retirees***

The health reform law created a \$5 billion program to support employer health plans that provide coverage to retirees who are not yet eligible for Medicare, to help protect access to coverage while reducing costs for employers and retirees. As many as **117,000** early retirees in New Jersey who have health insurance through their former employer could benefit from this program, which will provide financial assistance until 2014, when health insurance Exchanges will make it easier for early retirees to access affordable health insurance. [WhiteHouse.gov, accessed [6/7/10](#)] The Department Health and Human Services (HHS) issued regulations indicating the program started on June 1, 2010, in advance of the June 22, 2010 effective date required by law. [Federal Register, [5/5/10](#); White House, [5/4/10](#)] A recent survey found that 76 percent of large employers that offer retiree benefits plan to pursue participation in the program, and that the average federal reimbursement for each early retiree will represent between 25 and 35 percent of each early retiree's health care costs. [Hewitt Associates, [5/25/10](#)]

## ***Affordable Coverage Options for New Jerseyans***

The *Patient Protection and Affordable Care Act* and the *Health Care and Education Reconciliation Act* contain several provisions to expand affordable coverage options for millions of Americans. First, health reform will provide immediate access to quality, affordable health insurance for as many as **130,793** uninsured New Jerseyans who are unable to obtain health insurance because of a pre-existing condition. [staff estimate using AHRQ, [4/09](#) and HealthReform.gov, accessed [3/20/10](#)] Starting July 1, 2010, approximately **\$141 million** will be available to operate this program in New Jersey. [Department of Health and Human Services, accessed [6/7/10](#)]

Second, health reform will ensure that the **1.5 million** uninsured New Jerseyans and **326,000** New Jerseyans who purchase health insurance through the individual market have access to affordable health insurance options through state-based health insurance Exchanges in 2014. [HealthReform.gov, accessed [3/20/10](#)] By reforming the insurance market and forcing insurance companies to compete for business through the Exchange, health reform will reduce family health insurance premiums by **\$1,860 - \$2,660** for the same benefits. [Senate Finance Committee estimate based on CBO, [11/30/09](#)] In addition, **854,000** New Jerseyans who purchase health insurance through the Exchange will receive premium tax credits to help make health insurance even more affordable. [HealthReform.gov, accessed [3/20/10](#)] During the first five years that the health insurance Exchange is operational, New Jerseyans will receive **\$13.9 billion** in premium and cost-sharing tax credits to further reduce the cost of health insurance. [Senate Finance Committee]

Finally, health reform will open access to Medicaid for **476,277** newly eligible New Jerseyans, by expanding eligibility to non-elderly parents, childless adults, children, and pregnant women with income up to 133 percent of the federal poverty level. [Urban Institute, [1/25/10](#)] The federal government will fully fund the cost of covering these newly eligible individuals for three years and will pay 90 percent of these costs after 2020, compared to the current contribution in New Jersey of 50 percent of costs. In total, New Jersey could receive **\$9 billion** in federal funding during just the first five years of this coverage expansion. [Senate Finance Committee]

## ***Affordable Coverage Options for New Jersey Young Adults***

According to the National Conference of State Legislatures, “Young adults often lose their health insurance if covered under a parent’s or guardian’s policy at age 19 or upon graduation from high school or college.” [NCSL, accessed [3/20/10](#)] For plan or policy years beginning on or after September 23, 2010, young adults in New Jersey will be able to remain covered by their parent’s insurance policy until age 26. Ultimately, the **758,000** young adults aged 19 to 25 in New Jersey could benefit from this policy, and the Administration estimates it will help approximately **27,800** young adults in New Jersey who could now have health insurance coverage through their parents if not for their age. [U.S. Census Bureau, [1/7/10](#); WhiteHouse.gov, accessed [6/7/10](#)] In addition, once the health insurance Exchanges are operational in 2014, **1.2 million** New Jerseyans under age 30 will have access to less costly catastrophic-only health insurance plans. [U.S. Census Bureau, [1/7/10](#)] These plans will also be available to others who are exempt from the individual responsibility policy.

## ***Job Creation***

A recent analysis found that slowing the growth rate of health care costs will make it more profitable for businesses to expand employment, leading to estimated job gains nationwide of 250,000 – 400,000 per year for the next decade as a result of health reform. [Center for American Progress, [1/10](#)] For New Jersey, this could mean **16,200 - 25,900** new jobs each year. [U.S. Public Interest Research Group, [1/20/10](#)]

## ***Support for New Jersey Community Health Centers***

Community health centers provide critical health care to New Jerseyans, regardless of their ability to pay. Health reform makes an immediate and substantial investment in the **134** federally-funded health centers in New Jersey. [National Association of Community Health Centers, [2009](#)]
